BHU PHD IN LEADERSHIP 2016

PRESS RELEASE

Beulah Heights University Announces PhD in Leadership Program!

TO ANYONE WITH AN EARNED AND ACCREDITED MASTER'S DEGREE – A PHD IS CLOSER THAN YOU THINK! Beulah Heights University is proud to announce the beginning of a new and innovative PhD in Leadership Program beginning January 2016. This program equips scholars to be researchers and specialists in the field of leadership. Because leadership is such a broad field, the beauty of the program is that it allows each student to identify and focus on a specific leadership concentration. For example, ecclesiastical leadership, community leadership, non-profit leadership, global leadership, organizational leadership, and so forth. The options are practically limitless as each student will engage in 4 courses of self-directed study in their concentration, and will produce a dissertation worthy of publication as the capstone for the program.

Based upon a COHORT STYLE, this 60 hour PhD Program will provide the tools you need to be a true doctor in the field of leadership. Each of our cohorts will address topics and issues that are prevalent to performing ministry in a transitory and very challenging moment in time. Our program, which is designed to be completed in 3-5 years (inclusive of Thesis Defense), will assist.

You still have time! We are ACCEPTING APPLICATIONS until December 14, 2015. Following that deadline you can plan to join our Spring 2017 cohort. Come join us on the cutting edge of scholarship and understand leadership at the pinnacle of scholastic inquiry. This program features an emphasis on cutting edge research from day one; a faculty who are committed to advancing the theory of leadership; a curriculum that allows you to find your own unique voice and carve your own niche in the field of leadership; and, a collaborative culture of lively debate.

The PhD Program at BHU is designed to produce scholars who conduct significant, original research. As a student you will explore and develop your research interests. Through the coursework and guidance of faculty you will develop your ability to think creatively, work independently, analyze and solve problems effectively.

MORE

There is room at Beulah for you. If you are interested in applying for this upcoming cohort, please contact Dr. Mark E. Hardgrove at mark.hardgrove@beulah.org or give him a call at 404.627-2681 ext.157. Don't hesitate or miss your opportunity to get in on this ground breaking program.

One-on-One INFORMATION SESSIONS are happening RIGHT NOW!
Give us a call to discuss the benefits and power of this program.
